## Letter from the Editor...

By: Brittany Arp **Editor-in-Chief**

It's hard to believe that I have been in journalism for four years, and even more unbelievable that those four years are already over. Between our very *interesting* field trips, stressful video projects, and all of those class periods when our group just couldn't stay focused, it seemed like the nonsensical shenanigans never stopped. Luckily, I had great editors alongside me, like Kayla Kuppertz and Allie Schutt last year and Aniela Gesing this year, to help me sort through the craziness. Although my fellow Journalism Club officers, Jake Harvey, Dominick Giannini, Owen Nizzi, and Thomas Warren were often the leaders of the shenanigans, they made my time in journalism absolutely unforgettable.

Being both the Editor-in-Chief and President of Journalism has taught me many life lessons, one of which would be time management (which I'm still not very good at, but we're learning). I was a co-editor last year and I spent all of my time in Miss Howe's classroom anyways (not to mention that I've been in journalism longer than anyone. Ever. #Journalism4), so it only made sense for me to be the Chief, as the cool kids called me. Speaking of my peers, I'm impressed with how far each and every one of them has come, both as people and as writers.

Throughout my journalism career, I've had many good editors, officers, and peers, but the person who has single-handedly helped me the most is obviously our lovely adviser, Miss Howe. "Big Papi" has always been there when I've almost changed the theme of the website (There are many cool things to do on WordPress, but never EVER change the theme), needed help with an article or an essay, or just wanted someone to listen to my daily political rants. She has helped me grow to be the best student, writer, and person I can be, and I appreciate her every day because of that.

In the fall, I will be attending Point Park University for Political Science, and, while I won't necessarily be in the journalism field, I have no doubt that I will be using many of the skills I've learned throughout the past four years in journalism in my college classes, and life in general.

I wish all of the seniors in journalism the best of luck in their future endeavors, and I can't wait to see the improvements made to the club by the current underclassmen and the journalism students to come.

Best wishes and all of my love,  
Brittany Arp **Editor-in-Chief**

## A message from the Class Presidents

To my classmates,

I know we all do a sort of eye-roll when Mr. Demorest reminds us nearly every day to, "Stop and smell the roses," but Mr. Demorest knows a thing or two. He's right. We only have this moment for a short while; we should relish it, take it in, and enjoy every minute of it. I hardly ever believed anyone when they told me that senior year would fly by, but now that the moment is here, I feel a little foolish for ever doubting it. As the research papers are being turned in, the graduation party invitations are being handed out, and finals are starting, I know that life seems to be speeding up with no signs of slowing down anytime soon. That's why I wanted to take a moment to say take a deep breath, smile, and take advantage of this time in your life! This is the last time our class will all be together, sharing the memories that will forever be in the back of our minds twenty, thirty, and even forty years down the road. As we have these last few weeks to enjoy with each other, let us truly appreciate every opportunity we are given. After graduation, the responsibilities will grow, the workload will increase, and we will realize how we took things for granted.

In this hectic season of our life, let us not forget to stop and let the individuals who have supported us know we appreciate them. Do not get too caught up in routines and schedules that you lose your genuine character and heart that makes you you. If someone has inspired you in your time in high school, let them know. Thank them. If someone has been kind to you, return the favor. If you were encouraged by a fellow classmate, tell them. Do not be afraid to be a little silly and enjoy yourself. Make the most of that last biology class, asking Mrs. Swanson everything you ever wanted to know. Make amends with those you feel have wronged you and you have wronged. Write your English teacher a letter letting them know how much their time spent helping you perfect your essay was valued. Run that Track 4x4 relay just for the experience. Before we all split off and go our separate ways, let the people who have impacted you the most know that their actions did not go unnoticed. Let them know that they made a difference in shaping you. They deserve to know that, however small these actions may appear, they made a difference.

While living in a small, close-knit community is definitely not ideal for all of you, know that you had an opportunity many others will never have. The connections made in this community are made with those who care the most for you; these people have seen you grow, fail, and succeed. They are the ones who want to see you flourish the most. I ask you, please, to take every opportunity you can to better yourselves, and by doing this, better your community. Dream big, not only for yourself but the people you have back home. Give back to those who have given everything to you. I believe Winston Churchill best explained the true worth of giving when he said that, "We make a living by what we get, but we make a life by what we give." Give of your time and talents. Reciprocate kindness. Take every opportunity to educate yourself. Stand for the weak, especially when no one else will. And, most of all, smile and enjoy this moment!

Thank you, classmates, friends, and teachers for making my high school years something that will be extremely hard to say goodbye to. Classmates, I know each and every one of you has the opportunity to change the world, so please take it! I pray you all find purpose, passion, and joy in your futures. Thank you for the memories!

Hosanna Senz Senior Class Co-President

To my classmates,

It has been an honor to have served as our Class President for three years. It has taught me many valuable lessons that I won't ever forget. I have formed countless bonds and relationships from which I have learned to accept others and not to judge them because we all have our own struggles. I encourage you, Class of 2017, to do the same. I encourage you to take all the achievements and experiences, as well as the failures and mistakes and learn from them. We are young and bound to make mistakes. Where we fail is when we let our failures define us. Accept the past and move forward.

Now is when we need to have confidence in ourselves and have faith that things will work out for us. Everything that we have been working towards has paid off. Now is when we must be ourselves and stop following the crowd. The crowd isn't going to make sure that you pursue your passions and goals. The crowd isn't going to get you where you need to be in life; that is your job. As we go our separate ways into the real world, we need to be our own persons and not constantly worry about what anyone else thinks, because no matter where you go or what you do, someone is always going to have an opinion about you. Whether it is good or bad, let them. You do you; it's your life!

Lastly, and, in my opinion, most importantly, don't forget where you came from. Don't forget about our small town filled with farms, woods, cricks, and fields. This is where we grew up together for the majority of our lives. Wherever you go, don't forget where you came from. Congrats, Class of 2017!

Lauren Honhart Senior Class Co-President

## FOOTBALL

By: Adam Pascuzzi

As the Knights football season came to a close, their record was 6-4. There were a couple of games the Knight's should have won, but ended up short of a victory; however, they did make it to the playoffs again. Besides those games, this season was a successful one. The Knights were placed into a new region that was tougher this year and played a few new teams that included Erie East, Seneca, Northwestern, and North East. For the first time in over a decade, the Knights football team defeated Mercer, the one team in their schedule they wanted to beat the most. This was one of the greatest accomplishments the team achieved this year,

for their hard work and dedication paid off. The players put in countless hours of hard work during the offseason and during the season as well.

The coaches are also a big part for the team's success. Without each of the coaches' dedication to the kids, the athletes would have never been able to accomplish what they did. Each kid put in every ounce of hard work that was needed to have the winning season that we did. Some kids even started as early as December.

The seniors, who were all excellent leaders, were Bryon Braswell, Thomas Warren, John Bortz III, Adam Pascuzzi, Spencer Gray, Hunter McNutt, Mike Ott, Ryan Schnars, Owen Nizzi, and Jeremy Carlson. A few of the Knights, John Bortz III, Adam Pascuzzi, Spencer Gray, Hunter McNutt, John Hummel, Jonah Samuelson, and Jaydon Hayes, were Region All-Stars. Because this year was very senior-heavy, the underclassmen have big shoes to fill; however, the seniors feel confident they will step up and get the job done. If they keep up the effort that they have been putting into the team, there should be no reason for them not to have another successful season. For some of the seniors, they will be playing at the college level. The seniors advancing to collegiate football are John Bortz III (Hudson Valley Community College), Hunter McNutt (Allegheny College) and Adam Pascuzzi (Allegheny College).

There is more to football than just winning games, though; this sport teaches you to grow up to be a man, to become a leader, and to take care of each other. Starting the season, you may be just friends, but by the end of the season, you are a family, part of a brotherhood that you will always have because you know those people always have your back. Good luck to the Knights football team and the kids who are continuing on at the college level!

## Boys Soccer

By: Dominick Giannini

Looking back, the class of 2017 had anything but a predictable four seasons of Eisenhower Boys Soccer. Coaching changes were a part of daily life for our team. Freshman year, we began with the team of Matt Decker and Eloy Garcia. Matt was a former standout player for the Eisenhower program and was also the son of longtime coach Mike Decker, who had retired the season prior. This was Matt's first season as a coach and he stepped up to fill the shoes left by his father. Then, sophomore year, Coach Matt returned, but with Scott Hendrickson in tow as his assistant coach. After these two seasons, Matt had to reluctantly resign as head coach, as his upcoming marriage required him to relocate. Filling his role, however, were two former standout alumni in Greg VanOrd, as head coach, and Ben Perkins, as assistant coach. Greg continued on for our following season, but, unfortunately, Ben could not return. While having all of these coaches has sometimes made pre-seasons a bit difficult, the variety has brought us plenty of new formations, new playing styles, and fun.

Our senior year was trying, to put it bluntly. Coming off the best season our program has had since our coaches were players meant expectations were high. After graduat-

ing thirteen seniors the year previous, it took a group effort to rebound and be able to compete. Although our season wasn't the greatest, we still have the memories of our time on the team, such as Free Park Fridays, cross-country training, the subsplosion, and the Soccer Bus Constitution.

It's been a great four years and it's going to be difficult to leave it behind. I know that every player in the program, especially the six seniors, will be moving on to bigger and better things in the near future. Watching from the sidelines is going to be bittersweet, but I'm excited to see what the future holds.

## Girls Soccer

By: Megan Wilson

I have been playing on Eisenhower's girls soccer team since the ninth grade. This year, I was chosen as the speaking captain, and it allowed me to not only lead the team, but also to see it grow from a different perspective. While the previous years of soccer were not too bad, I believe this year by far has been the greatest year for the girl's team.

In past years, we had a lot of drama and fighting within the team. There was also a significant division within the group where often the girls would not talk or hang out outside of soccer. This year was unbelievably different. Our team was united and worked well together. Instead of tearing each other apart, we all encouraged each other, no matter how good or bad the performance was. We took in players who had never played soccer with open arms. We also hung out outside of soccer. We went out to eat often and shopped as a team. We had little parties and gatherings. We formed such exceptional friendships, and, when the season ended, we continued to hang out.

Part of how our team came together to lead themselves was due to a lack of adult leadership. This year, while the team's performance improved, there were times when we could have used a bit more leadership and direction from an expert. As a result, we were motivated to work hard and work as a body for the sake of the team.

As I head off to college, I will think back fondly on my time in soccer and be thankful for the unforgettable memories made this season.

## CAPPING OFF A CAREER

By: Jake Harvey

In the distant future, when I am reminded of my time spent at EHS, the first memories that I will recall will have occurred on a baseball field. I was honored to be a contributor on some of the best baseball teams to ever go through Eisenhower High School. Coming into the Eisenhower baseball program as a freshman, the upcoming season was looking bright with a very solid team led by star pitcher, Casey Vincent. Prior to the 2014 season, the Knights had not had a winning baseball season in over a decade. After setting goals of a winning record and a district 10 championship, we exceeded expectations by posting a winning record, defeating Union City in the District 10 championship, and ranking second in the region behind Franklin. Entering the first round of the state playoffs, we suffered a loss against Altoona powerhouse, Bishop McCort.

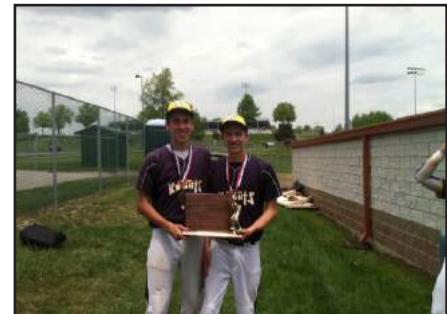

With a chip on our shoulder, we

started training heavily at an indoor facility in Erie in the early months of 2015. Our goals that year was to repeat as District 10 champions, win Region 4, and continue our success by winning a state playoff game. After cruising through the regular season without losing a home game, we easily won District 10 and Region 4. The time was ours to win a state playoff game. In the blink of an eye, we had won two state playoff games and we then faced off against Greensburg Central Catholic, the top ranked team in the state. In the biggest upset of my career, we pulled off a 3-2 win, as we anxiously waited to face off against Juniata in the final four. After another exciting win at Shower's Field, we had reached the State Championship, where we were to play Lancaster County Christian School at Penn State University. Walking onto Medlar Field was everybody's greatest athletic achievement. Although we suffered an 8-1 loss, it was an experience I will

never forget with the greatest teammates.

With the loss of many key players, the final two years of my career were not as successful. In 2016, we earned a Region 4 sweep, but failed to make the District 10 championship game. As a senior, we started from scratch, constructing a lineup with many new names. With a new coach and inexperienced team, we held our own, losing to Mercer in the first round of playoffs.

All in all, my baseball career has been unforgettable, and I am anxious to watch future Ike teams compete for more region and district titles.

## SOFTBALL

By: Emily Rutsky

This year's Eisenhower softball team was very young, which meant we had a lot of learning to do. We started the season out with many cancellations, which really affected how the rest of our season went. Although our record might not show our true potential, we did have a very successful season. Not only did we learn a lot about softball, we also had fun doing it. We were a very close team and that is what I will miss most about it.

We beat Youngsville twice and Sheffield once and we had a great success with those games. We still gave it all with every game that we played this year. Some games we lost by a

lot, but we would still come back to practice the next day and be ready to go again. Our practices were not only a place to learn, but also a place we made many memories.

It didn't matter to what team or how bad we were losing, there were many games where we were able to make a comeback with runs in the last few innings. Although we weren't able to make a big enough comeback to beat them, we were able to show that we had improved. We had determination to get better and we would never stop fighting until it was over.

I'm going to miss softball a lot. I'm glad I was able to play my senior year for Eisenhower. I made a lot of new

friends and had fun doing it. Softball has been a big part of my life for a long time and I'm happy that I was able to meet a group of girls that cared about the game just as much I do. I'd like to say good luck to all of the underclassmen that I am leaving behind on the softball team and I hope they have many more successful seasons.

# Senior Reflections

## CLOSING OUT THE SEASONS

### BOYS BASKETBALL

By: Thomas Warren

The Eisenhower Boys Basketball team ended the season with an exciting accomplishment of making playoffs; however, it was too bad they couldn't fulfill the journey of advancing even further. The boys started out with high expectations, especially after starting up in the summer and making it to the semi-finals of the Jamestown summer league, which they have never accomplished before.

The boys usually start out the year going to Sheffield to play in the tip-off tournament, but, this year, the Knights were up for some competition, going to Fairview and playing against two Triple AAA schools. Lessons were learned after the losses to the big schools and it motivated the Knights to work hard to achieve their goals of becoming the great team they wanted to be.

Eisenhower was viewed as an experienced team, with the starting five containing three seniors and two juniors. However, they started out rough, dropping their first six games of the season and then picking it back up, going on a six game win streak before losing a game to region champion, Cambridge Springs. The Knights ended up going (13-10) taking third in the region, with a record of (10-4).

Although the year didn't go as planned for the Knights, getting knocked out in the first round of playoffs by West Middlesex, there were many upsides to the season. It is always a pleasure playing with your best friends, and this senior class was closer than teams in the past have been. The team had many memorable accomplishments, like Senior, Thomas Warren, and Junior, Jaydon

Hayes, making first team all-region all-stars, and making playoffs.

The team is going through a change next year, losing three seniors and transitioning to a new head coach. Coach Dave Allenson is stepping down and letting assistant coach Ryan Williams take charge as the young coach looks at trying to do something big with this talented class of 2018. Good luck, Knights!

### LADY KNIGHTS BASKETBALL

By: Joni Zortman

Basketball is a sport where you interact with many other people; you get very close to your teammates and share many amazing memories. Basketball to me was not just a sport, it was a way to make friends and make memories. It was not always easy, there was a lot of yelling and fights, but, in the end, we always worked together to try and achieve goals. I would recommend playing basketball to many students. If you are willing to push hard and push others, then basketball is an amazing choice.

I will never forget the past few years being an Eisenhower Knights basketball player. The coaches pushed me and helped me become the person I am today, and the players have become my family. Playing in a sport where you spend many hours together almost every day of the week, you get very close, and

I thank everyone of the players for making basketball season a time to look forward to. I only wish I could have one more season to cherish the time with them a little bit more. Thank you to everyone who supported me and who cheered on us while we fought our hardest to make our school proud. Lastly, thank you to the coaches for making basketball an event I will never forget.

## Lady Knights Volleyball

By: Madi Hultman

Volleyball is, more than anything, a mental sport. You can practice the mechanics all you want, but if you're not mentally prepared, you're not going anywhere. My career as a volleyball player for Eisenhower began in seventh grade and has had its share of ups and downs.

Overall, volleyball has been a positive experience that has helped everyone who was a part of it grow into a stronger person. This year, our seniors were Madi Hultman (me), Brittany Arp, Emily Bailey, Bethany Watkins, and Shanna Peters.

Each senior brought a different and essential element to the atmosphere of the team. Even though we had a larger senior group, we were a young team this year and we struggled with that situation at times.

A couple of essential players from last year hadn't come out for their senior year and were missed dearly; there were times when we struggled to make up for our lost seniors. This season, while not the most successful, has been one of the most entertaining. From spiders in our coffee cups, to how much sass we can give, this year's volleyball season has been filled with memories I will

not soon forget.

## Cheerleading

By: Emily Satterfield

I have been a part of cheerleading since seventh grade. Cheerleading has been my biggest hobby, and I have made so many memories and life-long friends. As a seventh grader, cheerleading seemed very intimidating and I was very nervous, but everyone there made the younger girls feel included. We have always had large numbers and some of my fondest memories of cheerleading was when we had over 20 girls on a squad.

There were so many opportunities being involved in the sport, like Pitt Cheer Day. The squad traveled to Pittsburgh and we were able to cheer on the field during a Pittsburgh Panthers game. It was an amazing time and it was incredible to be surrounded by other cheerleaders who loved the hobby, as well.

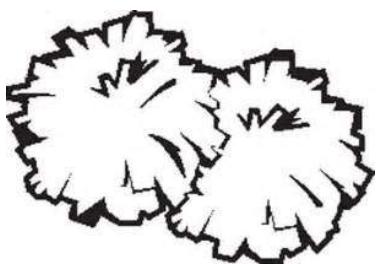

As for this year, we did not have the immense amount of girls, like in our previous years. I was very nervous because there were only six varsity-aged girls. However, the seventh and eighth grade girls really stepped up and helped the varsity team. It was watching their enthusiasm to be cheering at a varsity

game that reminded me of myself being so excited to cheer. They were an amazing group of girls, and I am the luckiest senior to have had the opportunity to help them become better; they helped me to find the same enthusiasm that I once had.

Some of my best memories come from this group of girls. I could not imagine having a different team than the one that I was so lucky to have to finish my high school career of cheerleading.

*Congratulations,  
Class of 2017!*

# Senior Reflections

## IKE MENS TRACK

By: Owen Nizzi

At a ripe age of 13, during my seventh grade year, I began my journey with the Eisenhower Men's Track and Field Team and, let me tell you, it was quite a ride. It was an eye-opening experience the moment I walked into the ol' study hall room, where everyone was acting very wild until the coaches, Dave Bauer and Ryan Hoffman stepped in. When we truly began practicing, I often wondered why I signed up to run for fun; it's a love/hate relationship.

I was pushed by my elders to excel in the sport. I happened to find my calling in both the 110 and 300 meter hurdles, where I was lucky enough to have Timmy Lange and Jake Vanhouten to look up to. For my freshman and sophomore year of high school, we made some great memories including Timmy Time, Rides in the Rav, and other, numerous shenanigans. Our practices were short but intense and sometimes they consisted of Ultimate Frisbee, Manhunt, and Dodge Ball. However, we still managed to have two good seasons.

When junior year rolled around, the coaching staff underwent a slight change; Mrs. Beach took over the head coaching job, along with Ryan Hoffman as assistant. The team settled down a tad bit; however, we no longer had the most athletic group. Ike Men's Track still managed

to send numerous athletes off to the District 10 Championship, where the 4 by 100 relay record was broken. My junior year was slightly emotional, mainly because I had to say goodbye to some of the best teammates I've ever had, Logan Eadie and Derek Lasecki.

Anyone who has ever participated in track can agree with me that it is strictly a love/hate relationship; I even thought of not running my senior year. This year, the coaching staff happened to change once again, and Mr. Dave Allenson took over the head coaching position. This season consisted of many ups and downs, and part of the issue stemmed from a young, inexperienced team. However, numerous athletes qualified for districts; Ike Men's Track sent all three relay teams, as well as Willy Hoffman in pole vault, and Jonah Samuleson and myself in the hurdle races. It was quite the experience running at the next level, especially when one of your teammates is crowned district champion and moves onto the state level.

I hope the best for all of my present and past teammates who shared the memories that track created; I couldn't have done it without the numerous coaches who dedicated their time into pushing every member on the team. To all my teammates that I will leave behind, remember, always send it at 110% because it goes by very quickly.

## IKE GIRLS TRACK

By: Kirsten Baran

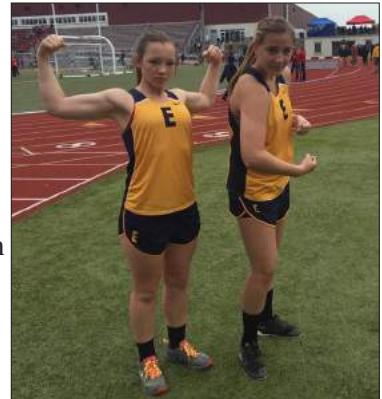

I have been on the girls track team ever since my seventh grade year. Looking back, all six years of track have been memorable, but this year was my favorite. From securing Regional Championships three years in a row to being on the All-Star team, I now realize how much I took my time for granted.

Of course track is not anybody's favorite sport, but it's a nice change of scenery. I've had so many opportunities with the track team; the awful hotel, the crappy weather, breaking the school record, and having a love/hate relationship with districts. As a freshman, there was a lot of pressure being put upon me to secure wins and get points. Remembering all the pressure I used to have, I wouldn't have achieved as much as I did without it.

I am also going to take this time to appreciate my time

on the field and not on the track; simply for the fact that I could eat whatever I wanted whenever I wanted, especially the Krispy Kremes when the light was on. It took me 18 years to finally run a track event, and when I did, I still didn't enjoy it.

As a senior, I hoped I made an impression on some of the younger throwers because I wish for them to continue on as Regional Champions. I believe the girls track team has had a lot of success and that they can carry on what we started.

## Wrestling

By: John Bortz III

This 2016-2017 wrestling season was a season to remember at EHS. From the new coaching staff to the record-tying season with a team full of underclassmen, it was a very exciting year for the team to say the least. This year, there were new faces at the coaching positions to help the Knights achieve success, with Kris Black as the new head coach and Denny Johnson as the new assistant coach, along EHS alumnus Jake Johnson also assistant coaching.

The season started with younger wrestlers in the room and, because of the inexperience, the season started with review or learning the basics so they could get up to speed with the season. Nevertheless, the Knights went on to have a successful start at their first tournament with Spencer Head at 4th, Matt Hulling at 3rd, and Josh Bortz at 6th in the S.T.O.W.A tournament. This was only the beginning for the Knights' success; as the season progressed for the Knights, they went on to be successful, with many wrestlers placing at the Tool City tournament, as well as the Falconer Tournament.

The Knights went on soon after to win the Sharon Duals with a 1st place finish for Double A, which was ultimately the biggest tell that the Knights have great potential for the years to come. Into the postseason, the Knights carried on this momentum, tying the record of nine wrestlers advancing to districts, which was exciting for the Knights. As the post season progressed, two Knights went on to place at districts - Spencer Head at 5th and Logan Jaquay at 6th. This season, the Knights may have experienced some growing pains, but, as a member of the team, I can tell you that this team is full of guys who want to work to win. All of them have each other's back, whether that is on or off the mat, which is something special that you cannot find everywhere. I'm excited for the Knights' upcoming seasons and I wish them the best to improve as wrestlers, students, and, most importantly, people. IKE PRIDE!

## CROSS COUNTRY

By: Hannah Bortz

Anyone who has ever run before knows that it is not easy. In Eisenhower Cross Country, we run miles in all sorts of miserable conditions (rain and snow) and terrible courses. But we love it - maybe that's why people think cross country runners are crazy. We enjoy getting up at ungodly hours to run 5K's (3.1 miles), running up and down hills, and through mud and water.

We may not be a part of a winning team, but we are part of a team nonetheless. We cheer each other on and are elated when one of us sets a new PR, or just has a good race. We're competitive with each other during the race, but afterward, we're probably each other's biggest cheerleaders. I think that's why we have become almost like a family. We're there for each other when no one else is (because who wants to stand in the mud and watch people run) and we experience everything together in a way that no one else does.

My cross country career started in seventh grade. I never thought that I would have continued with it all the way until my senior year, but I have enjoyed it every step of the way and have created memories I will not soon forget. From getting chased by turkeys to having mud fights, I know I will remember my time in cross country fondly. My fellow seniors, Alecia Straight and Levi Kelly, have added an enormous amount of character to the team and are part of some of my best memories in cross country.

# Senior Reflections

## GOLF

By Jack Reynolds

I started playing team golf as a freshman, but I have had a set of clubs since I was 16 months old. I was going to the driving range before my second birthday, and I played my first 9 holes at three years old. Even when I was that young, I walked that entire round and carried my own bag.

Eisenhower was the first golf team I played on, and I lettered my freshman year. At the end of that year, the school board voted to make golf an all-county team based in Warren. So, I sat out my sophomore year, unsure if I wanted to play outside of an Eisenhower team. However, I decided to try out for the Warren Dragons my junior year. I was able to make the Varsity team that year as well as my senior year, and I lettered both years.

Playing for Warren, as a team, we've experienced a lot of success. This season, we were Region 3 champs. Golf has not brought a title home to EHS since my dad's team when he was a senior, so playing for Warren has been a good experience for improvement. I also made Districts as an individual and as a team. I look forward to continuing my golfing hobby. I guess that's what is unique about my sport: I play every day that I can, and will continue to for the rest of my life.

## TRAP

By: Dominick Diethrick

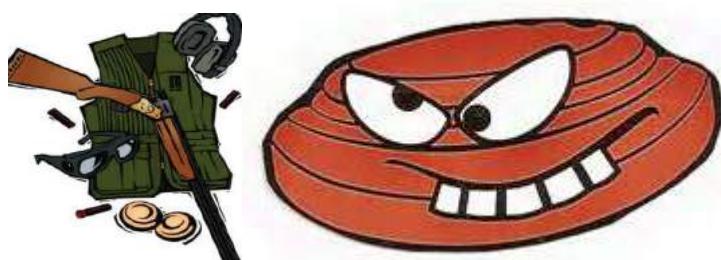

I started shooting trap my freshman year. That first year, I struggled, but going into my second year I began to excel. During my sophomore year, we shot against Corry, a five year undefeated team. I got there late so I had to shoot on the last squad. My squad consisted of four other Corry shooters and myself. After we had finished shooting, I had shot my first 25 straight. As I began to walk off the line, my teammates came out to congratulate me. Little did I know, my score was what we needed to beat them. We were down by one target and I needed to shoot a 24 to tie them and a 25 to win by one target. That was the first time that they had been beaten in five years.

After high school league was over, I was asked to shoot on the states and national teams. I competed on a team with a squad of four of the Corry shooters we had beaten. As a squad, we took second place at states and 10th at nationals.

I have since continued shooting and will be competing the weekend of June 10th and 11th at states with a team consisting of Dominick Giannini, Hunter Wolcott, Hunter Trawick, Chris Anthony, Kyle Voty, Lucas Rizzardi, Zach Nugent, Brody Witney, Jake Taylor, Paul Swanson, and myself.

I have really enjoyed my time participating as a part of the trap team and continuing on to be a part of the states and national teams. Although my time at Eisenhower may be over, I know that trap is something that I can continue even after high school.

## MOVING ON TO COLLEGIATE SPORTS

By: Thomas Warren

The school year is coming to an end and we are letting our seniors go into the real world, whether it is going to a two year school, four year school, community college, tech school, trade school, or even starting off in the family business and starting work. Some seniors are taking the initiative to explore the world of sports in college, in addition to the academics with which they will be challenging themselves. *The Squire* wants to wish every senior the best of luck with whatever they pursue.

**Adam Pascuzzi:** Attending Allegheny University and playing football; looking at the position of a slot receiver.

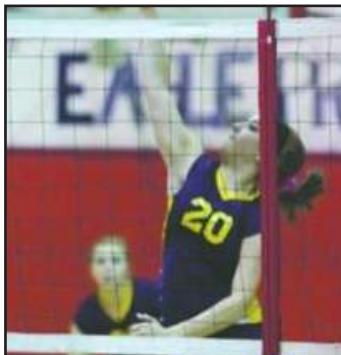

The boys representing their selective college.

**John Hummel:** Attending Washington & Jefferson; looking at playing defensive end for football.

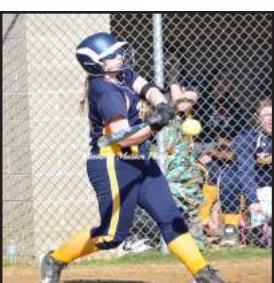

**John Bortz:** Attending Hudson Valley Community College; looking to play linebacker and transfer to a bigger school after two years.

**Shanna Peters:** Planning on playing volleyball at Mercyhurst Northeast.

**Hunter McNutt:** Planning on attending Allegheny University to play football and position as offensive tackle

**Emily Rutsky:** Attending Grove City College to play softball as a pitcher.

Emily and Jocelyn's last time taking the field as an Eisenhower Knight.

**Jocelyn Courtney:** Planning on attending Geneva College and playing softball as a catcher.

# Memories We Cherish

“SEEING MY FRIENDS EVERYDAY AND MAKING ALL THE MEMORIES WITH THEM”

- ADAM PASCUZZI

**“The brothers I’ve made over the years”**  
- John Bortz III

“Definitely the people! I’ll miss all the genuine fun we put in our everyday routine, too!” - Hosanna Senz

**“The boys back home” - Jake Harvey**

**“BEING FORCED TO INTERACT WITH PEOPLE” - MADISON HULTMAN**

“FREE WIFI, AND SPORTS” - TIFFANY WORK

*“My teachers and friends, especially Mrs. Swanson and Mr. Penley”*  
- Mariel Clark

“Being able to practice on stage whenever I want” - Sarah Dietsch

“Cooking with Adam on Fridays” - Nick Pratt

**“Smacking Ryan around” - Jake Ruttenbur**

“HANGING OUT WITH FRIENDS” - CHRIS ANTHONY

**“The teachers that will always support me” - Justin Perrin**

## A KNIGHT OUT WEST

By: John Bortz III and Adam Pascuzzi

The gentlemen are suiting up, the ladies are looking gorgeous, and it's time for the seniors to go out one last time together to make some memories. This year's prom was western themed, "A Knight out West," and located at the Willow Bay Theater in Jamestown, NY on the 4th floor.

The Prom Court consisted of John Bortz III with Brittany Arp, Bryon Braswell with Jocelyn Courtney, Spencer Grey with Lauren Honhart, Jeremy Carlson with Lakia Hedman, Jake Harvey with Madi Hultman, and Adam Pascuzzi with Shanna Peters.

Everyone waited in suspense for the crowning, and the audience was thrilled to find out that this year's Prom King and Queen were Bryon Braswell and Lauren Honhart!

After the crowning, the couples danced to a slow song and pictures were taken.

The tunes at prom this year were fantastic and provided by DJ Logan Black. It was good mix of slow dance songs alongside with some popular tunes, as well as some personal requests from the crowd. The dance floor featured an assortment of lights, a lit-up box to dance on, and, of course, deafening speakers to ensure the proper mood is set for the evening.

The junior class prom committee worked hard to decorate for the event, decking out the theatre in western themed décor. The dance floor featured

wagon wheels and stacks of hay to go along with the prom theme, as well as a picture booth where Mrs. McElhany captured student photos with a western backdrop. The steamy dance floor also had refreshments and finger food to make sure the energy was high and to prevent any breakdowns occurring on

the floor. The guests, after prom, all received a souvenir cup and two paper cowboy boots with the couples' names written on them.

After this year's prom, it will be hard to compete to create another prom just as fun. Good luck to next year's prom committee and keep the good ideas rollin'! *The Squire* and the senior class would like to thank all of those who volunteered to put everything together and made sure everything moved smoothly throughout the night - you are the unsung heroes!

# *A Knight Out West*

## SADD Club

By: Lauren Honhart

I have been a member of Eisenhower's SADD Club for four years now and have had the honor of being nominated as President this year. The name "SADD" stands for Students Against Destructive Decisions, and that alone ultimately sums up our purpose as club.

We organize numerous activities throughout the school year, such as organizing and participating in the Mock Car Crash, the Great American Smoke Out, the Wellness Fair, and working the Potato Wagon at our County Fair. We consistently work together with these activities in order to raise awareness for the dangerous and potentially permanent consequences of the destructive activities that some of our peers often take part in. We do all of these things because we care about the safety of our peers and want to get our message out in our school.

As SADD Club members, it is our responsibility to embody an exceptional model of how to make positive decisions on a daily basis. It is important that people acknowledge and understand that the destructive decisions that they make affect not only themselves, but everyone around them. It affects their friends, their family, their school, and the community as a whole, honestly. Around here, we especially have had a countless amount of unexpected accidents that have impacted and broken the hearts of many individuals. If our message as a club reaches and saves at least ONE of our peers from a life-threatening incident, then we have accomplished our purpose.

I have learned many valuable lessons from being in SADD and I hope and have faith that those who carry on the responsibility of being a SADD Club member in the future will take this liability seriously and continue to spread the word for the sake of our peers.

## Student Council

By: Emily Bailey

Student Council is a group of students chosen to represent their grades and peers. The adviser picks out the members by reading the letters they submit to apply for the club, considering the character of the student, as well as reviewing recommendations made by other teachers. This year, there was a new Student Council adviser, Mrs. Slattery. She is new to the school this year and to our Student Council, but she has done an amazing job with organizing all of the actives along with the members.

This year, Student Council put on the Homecoming dance, pep-assemblies, and many fundraisers to help the school, such as the clothing drive. Student Council also went on a fun field trip this year when we got the opportunity to attend a Pittsburgh Pirates baseball game. It was a great trip, and I feel that brought the council together even more.

The Homecoming dance is by far the biggest event that Student Council puts on. It takes a lot of preparation and teamwork to make it a night that everyone will remember. This year's theme was A Knight in Autumn, and the dance was filled with pretty fall themed decorations that the students seemed to love. It was a great success, especially for Mrs. Slattery's first year as the adviser.

Throughout my four years of being part of Student Council, it has taught me to be a good leader for underclassmen and to work well with others, in addition to sharing my own ideas and respecting others' ideas. I will miss being part of the EHS Student Council and wish the best of luck to all my fellow members and up and coming members.

# What Did You Enjoy Most Your Senior Year?

## Seniority & Graduation

Cameron Flasher- "Knowing that it was my last year"

Adam Pascuzzi- "Having a little more freedom than underclassmen"

Spencer Gray- "The feeling that you are almost done"

Hana Blasco- "The thought of graduation"

MICHAEL OTT- "RELAXING AND FINALLY REALIZING THAT I WON'T BE BACK IN SEPTEMBER."

Jake Harvey- "Doing everything one last time"

Jeremy Carlson- "Being able to sign my own permission slips"

## Friends & Memories

MEGAN WILSON- "ZACK FINCHER"

Kyle Voty - "The Fords F-100, F-150, and F-350"

Spencer Watson- "The Ford Clan"

Sammy Schmader- "When I was with friends and not in school"

Emily Bailey- "I enjoyed all of the fun memories and friendships I have made"

Alyssa Melice- "Time with friends"

Bethany Watkins- "Getting closer with my friends and graduation"

## Teachers & Classes

EVAN HONSBERGER- "ALL OF THE TEACHERS WHO UNDERSTOOD THAT I DIDN'T WANT TO BE HERE AND DIDN'T GIVE HOMEWORK"

Chris Anthony- "Mr. Penley's history class"

JACOB GRUBER- "THE CAREER CENTER"

Zac Rigard- "Skipping class with Mr. Martin"

Thomas Warren- "Hanging out with Ms. Walter"

Justin Perrin- "All of the teachers"

CHASE ELMQUIST- "THE WIFI"

## Sports & Clubs

Lauren Honhart- "Cheering, playing softball, being a wrestling statistician, and having 3 out of 7 study hall periods"

Bryon Braswell- "Being with my friends and playing football"

Rachel Bimber- "Experiencing Club Crossroads, going to football games, inside jokes with my friends, and finally graduating"

Jocelyn Courtney- "Hitting my last home run ever for high school in the last game of the season"

# Senior Reflections

## Art Club

By Brandon Sweet

Art Club is for those students who take a personal interest in the fine arts and wish to be able to collaborate with others in a group setting. In the years that have passed, there have been students who have created murals and raised funds for both art supplies and for a chance to go on the educational trips for the arts.

Each year, the Art Club sells candy around the school or holds a hat day where the students bring in one dollar to pay for the opportunity to wear their hats all day long in order to raise money. With the funds raised, the students go on the field trips of their choice, which may take them to a well-recognized museum or to one of the many workshops in or around Warren in order to learn new skills so they can apply those new techniques to their works of art. In recent years, the students who have taken part in the club have gone to The Albright Knox Museum, The Frank Lloyd

Right Museum, The Darwin D. Martin House, and The Crary in Warren.

During the 2015-2016 school year, the students were given the chance to paint a mural for Mrs. Swanson. Along the back wall, a nicely created structure of the human cell is showcased. It was a long and fun task the students were happy to undergo. The supplies were donated by the Wilcox Bros in Sugar Grove and some additional necessities were bought with the money students raised from selling the candy in their annual fundraiser. While the mural was in process most of last year, students this year were able to enjoy the completed mural while learning in science class.

Art club is fun in every aspect, as the students find creative ways to get out of school for educational purposes and a way to make the school shine brighter and show its true creative and inspirational spirit.

## Music Department

By: Mikki Gifford

My years in the Eisenhower music department have been the best years of my life. I've been in band since seventh grade and choir and marching band since ninth grade. When I started playing trumpet in seventh grade, I never thought I would be where I am today. Baby Mikki never saw grown up Mikki as an all-state musician for two years in a row.

The Pennsylvania Music Educators Association (PMEA) is probably one of the best things that has ever happened to me. PMEA has introduced me to so some of my best friends. Over the years, I have been to district band three times, region band two times, state band two times, district orchestra once, district choir once, and district jazz once. Not to brag or anything, but, during my sophomore year at district band, I chaired 1st chair 2nd cornet, my junior year 2nd chair 1st cornet, my senior year 2nd chair 1st cornet. At region band my sophomore year, I chaired 1st chair 1st cornet and, my senior year, 2nd chair 1st cornet. At state band my junior year, I chaired 2nd chair 1st cornet and my senior year 1st chair 2nd cornet, also earning the second highest score out of the trumpets/cornets. At district choir, I was two people away from moving on to region choir on tenor 1, and, at district orchestra, I was two people away from moving on to region orchestra. At district jazz, I was in the second band out of four bands on 3rd trumpet.

Mr. Napolitan has helped me so much over the years with my music skills. Honestly, if it weren't for him I wouldn't be where I am today. He pushes me and gives me exercises to help me gain more skill with my instrument. Thank you so much, Mr. N.

Mrs. Pearson was my choir director from ninth grade to eleventh grade before she retired. We all miss her so much and I can't wait to see her during summer music school!

Ms. McMonigal. Oh what a JOY it has been to have her as a choir director. She has really pulled me out of my comfort zone this year. She took me to district choir and I couldn't be happier. She's helped me with singing alone in front of people. Naomi Haight has also helped with that, and I love both of them very much. Ms. McMOM (as the kids call her) truly is just like a mom to us. She helps us when we are sad or angry, and I am very thankful for that. Her door is always open, except for when it's closed.

The music programs here at Eisenhower have made my life 1,000 times better. Thank you to everyone who has ever helped me with my music, including my guest conductors from PMEA and teachers from other schools across Pennsylvania.
